Grüner Veltliner

Wine Enthusiast: The winery's consistently flavorful version of this grape puts a New World spin on an Old World grape. It's ripe, round and lightly spicy, with jicama, cucumber and fleshy pear fruit...

-- Paul Gregutt

We love Grüner's versatility, due to the balance of fruit, acid and minerality. Though this would be superb with anything from spicy Thai to delicate fish, we keep hankering for raw oysters on the half shell when we open a bottle!
